SYNOPSIS & DIRECTOR'S NOTE

Welcome to Armadillo Acres, Florida's most exclusive manufactured-housing community, where everybody knows everybody - and everybody's business. When Pippi, a stripper on the run, arrives, she turns the lives of married couple Jeannie and Norbert upside down, while Betty, Lin and Pickles guide us through the outrageous comedy, infectious music and very big personalities.

Beneath the big hair and laughs is a story about courage, acceptance, and belonging. For Catalyst Theatre, it feels like a fitting first musical: bold, unexpected, irreverent and filled with the possibility that change can lead us somewhere wonderful. At times, the darkest experiences lead us to light and a much better path. These trailer park residents remind us that, no matter what role we play in that change, we all have one thing in common: we are overcoming obstacles and everyone is in need of grace. Thank you for helping us write the first pages of Catalyst Theatre's story.
